

**IN THE SUPERIOR COURT OF BIBB COUNTY  
STATE OF GEORGIA**

<p><b>KATHY JACKSON-BATTLE and JESSICA RAMIREZ, individually, and on behalf of all others similarly situated</b></p> <p><b>Plaintiffs,</b></p> <p><b>vs.</b></p> <p><b>NAVICENT HEALTH, INC.,</b></p> <p><b>Defendant.</b></p>	<p><b>CIVIL ACTION FILE NO: 2020-CV-072287</b></p> <p><b>JURY TRIAL DEMANDED</b></p>
--	--

**CLASS ACTION COMPLAINT**

1. Plaintiffs, **KATHY JACKSON-BATTLE** and **JESSICA RAMIREZ**, individually, and on behalf of all others similarly situated, bring this action against Defendant **NAVICENT HEALTH, INC.** (“**NAVICENT**” or “**Defendant**”) to obtain damages, restitution, and injunctive relief for the Class, as defined below, from Defendant. Plaintiffs make the following allegations upon information and belief, except as to their own actions, the investigation of their counsel, and the facts that are a matter of public record.

**JURISDICTION AND VENUE**

2. This Court has personal jurisdiction over **NAVICENT** as it is a domestic non-profit corporation in good standing, organized under the laws of the state of Georgia, with a majority (if not all) of its business in the state of Georgia, thus rendering the exercise of personal jurisdiction by this Court proper and necessary.

3. Venue is proper because a substantial part of the events and omissions giving rise to these claims occurred in Bibb County, Georgia.

### **NATURE OF THE ACTION**

4. This class action arises out of a July 2018 cyberattack and data breach (“Data Breach”) at NAVICENT’s medical facilities. As a result of the Data Breach, Plaintiffs and approximately 278,016 Class Members suffered ascertainable losses in the form of the loss of the benefit of their bargain, out-of-pocket expenses, and the value of their time reasonably incurred to remedy or mitigate the effects of the attack. In addition, Plaintiffs’ and Class Members’ sensitive personal information—which was entrusted to NAVICENT, its officials, and agents—was compromised and unlawfully accessed due to the Data Breach. Information compromised in the Data Breach includes names, dates of birth, addresses, billing data and Social Security Numbers, medical information, other protected health information as defined by the Health Insurance Portability and Accountability Act of 1996 (“HIPAA”), and additional personally identifiable information (“PII”) and protected health information (“PHI”) that NAVICENT collected and maintained (collectively the “Private Information”).

5. Plaintiffs bring this class action lawsuit on behalf of those similarly situated to address Defendant’s inadequate safeguarding of Class Members’ Private Information that Defendant collected and maintained, and for failing to provide timely and adequate notice to Plaintiffs and other Class Members that their Private Information had been subject to the unauthorized access of an unknown third party and precisely what specific Private Information was accessed.

6. Defendant maintained the Private Information in a reckless manner. In particular, the Private Information was maintained on NAVICENT's computer network in a condition vulnerable to cyberattacks, including the infiltration of certain NAVICENT email accounts containing Plaintiffs' and Class Members' Private Information. Upon information and belief, the mechanism of the cyberattack and potential for improper disclosure of Plaintiffs' and Class Members' Private Information was a known risk to Defendant, and thus Defendant was on notice that failing to take steps necessary to secure the Private Information from those risks left that property in a dangerous condition.

7. In addition, NAVICENT and its employees failed to properly monitor the computer network and systems that housed the Private Information. Had NAVICENT properly monitored the aforementioned network and systems, it would have discovered the intrusion sooner.

8. Plaintiffs' and Class Members' identities are now at risk of compromise because of Defendant's negligent conduct since the Private Information that NAVICENT collected and negligently maintained is now in the hands of data thieves.

9. Armed with the Private Information accessed in the Data Breach, data thieves can commit a variety of crimes including, by way of non-exhaustive examples: opening new financial accounts in Class Members' names; taking out loans in Class Members' names; using Class Members' names to obtain medical services; using Class Members' health information to target other phishing and hacking intrusions based on their individual health needs; using Class Members' information to obtain government benefits; filing fraudulent tax returns using Class Members' information; obtaining driver's licenses in Class Members' names but with another person's photograph; and giving false information to police during an arrest.

10. As a result of the Data Breach, Plaintiffs and Class Members have been exposed to a heightened and imminent risk of fraud and identity theft. Plaintiffs and Class Members must now and in the future closely monitor their financial accounts, credit reports, tax returns, and similar, otherwise secure accounts to guard against identity theft.

11. Plaintiffs and Class Members may also incur out of pocket costs for, by way of non-exhaustive examples: purchasing credit monitoring services; credit freezes; credit reports; or other protective measures to deter and detect identity theft.

12. By their Complaint, Plaintiffs seek to remedy these harms on behalf of themselves and all similarly situated individuals whose Private Information was accessed during the Data Breach.

13. Plaintiffs seek remedies including, but not limited to, nominal damages, compensatory damages, reimbursement of out-of-pocket costs, the cost of identity theft protection, and injunctive relief including improvements to Defendant's data security systems, future annual audits, and funded by Defendant.

14. Accordingly, Plaintiffs bring this action against Defendant seeking redress for its unlawful conduct, and asserting claims for: (i) negligence; (ii) intrusion into private affairs; (iii) negligence *per se*; (iv) breach of express contract; (v) breach of implied contract; (vi) breach of fiduciary duty; and (vii) breach of confidence.

#### **PARTIES**

15. Plaintiff KATHY JACKSON-BATTLE is, and at all times mentioned herein was, an individual citizen of the state of Georgia residing in the City of Dublin.

16. Plaintiff JESSICA RAMIREZ is, and at all times mentioned herein was, an individual citizen of the state of Georgia residing in the City of Tifton.

17. Defendant NAVICENT is a corporation organized under the laws of the state of Georgia with its principal place of business at 691 Cherry Street, Suite 700, Macon, Georgia 31201.

### **DEFENDANT'S BUSINESS**

18. NAVICENT operates a regional healthcare system in the state of Georgia that has more than 1,000 beds for medical, surgical, rehabilitation, and hospice purposes, offers over 53 specialties in more than 50 facilities throughout the region, and hosts over 100 medical residents and fellows.

19. Included within the NAVICENT system is The Medical Center, Navicent Health, a 637 bed, nationally verified Level I-designated Trauma Center.

20. According to its website, NAVICENT provides a broad range of community-based, outpatient diagnostic, primary care, extensive home health and hospice care, and comprehensive cancer and rehabilitation services spanning the full continuum of care. Included within the system are:

- a. Five acute care hospitals;
- b. A rehabilitation hospital;
- c. A children's hospital;
- d. A life plan community;
- e. An in-patient hospice facility, as well as in-home hospice care;
- f. Wellness and preventative services;
- g. Multiple urgent care centers, and;
- h. Numerous community-based partnerships.

21. NAVICENT is in the business of rendering healthcare services, medical care, and treatment for the greater Macon/Bibb County area.

22. In the ordinary course of receiving treatment and health care services from NAVICENT, patients are required to provide Defendant with sensitive, personal and private information such as:

- Name, address, phone number and email address;
- Date of birth;
- Demographic information;
- Social Security number;
- Information relating to individual medical history;
- Insurance information and coverage;
- Information concerning an individual's doctor, nurse or other medical providers;
- Photo identification;
- Employer information, and;
- Other information that may be deemed necessary to provide care.

23. NAVICENT also gathers certain medical information about patients and creates records of the care it provides to them.

24. Additionally, NAVICENT may receive private and personal information from other individuals and/or organizations that are part of a patient's "circle of care", such as referring physicians, patients' other doctors, patients' health plan(s), close friends, and/or family members.

25. All of Defendant's employees, staff, entities, clinics, sites, and locations may share patient information with each other for various purposes without a written authorization, as disclosed in NAVICENT's Joint Notice of Privacy Practices (the "Privacy Notice").<sup>1</sup> The current Privacy Notice has an effective date of November 2016.

26. The Privacy Notice is provided to every patient upon request and is posted on Defendant's website.

27. Because of the highly sensitive and personal nature of the information Defendant acquires and stores with respect to its patients, NAVICENT promises to, among other things: (i) "to keep your PHI private;" (ii) "to provide individuals with notice of its legal duties and privacy practices with respect to PHI;" (iii) "to abide by the terms described in this Notice;" (iv) to provide notice of breach "of your unsecured PHI," and; (v) to make any other uses and disclosures of medical information not covered by the Privacy Notice or the laws that apply to use "only with written authorization."<sup>2</sup>

### **THE CYBERATTACK AND DATA BREACH**

28. In July 2018, a cyberattack against NAVICENT occurred that involved some of its patients' Private Information that was contained in email accounts of NAVICENT employees.<sup>3</sup>

29. Those employee email accounts were compromised by data thieves, utilizing "phishing" techniques.

---

<sup>1</sup> <https://6e4e5253c366be07fb27-05a8d4e28b318db45e55745aeda40acc.ssl.cf5.rackcdn.com/privacy-policy-2016.pdf>

<sup>2</sup> *Id.*

<sup>3</sup> <https://www.navicenthealth.org/notice-of-data-security-incident.html>

30. Upon learning of the incident in July 2018, NAVICENT initiated a security incident investigation, notified law enforcement, and retained forensic security firms to investigate and conduct a search for any Private Information in the impacted email accounts

31. On January 24, 2019, NAVICENT determined that the compromised employee email accounts contained Private Information belonging to patients like Plaintiffs and Class Members, including some individuals' names, dates of birth, addresses, and limited medical information, such as billing and appointment information. The accounts also contained the Social Security numbers of some individuals.

32. Plaintiffs believe their Private Information was stolen (and subsequently sold) in the Data Breach.

33. NAVICENT stated it “cannot isolate exactly what, if any, information may have been obtained,” and could not rule out the possibility that the Plaintiffs’ and Class Members’ personal and confidential information (*i.e.*, Private Information) was compromised.

34. Despite being unable to rule out that the Private Information of Plaintiffs and the Class Members was not compromised, NAVICENT did not begin to notify potentially affected patients until March 22, 2019, nearly eight (8) months after the Data Breach was first discovered in July 2018, and nearly two (2) months after it determined patients’ Private Information was compromised and exfiltrated from the employee email accounts.

35. What’s more, NAVICENT was forced to issue a second notice of data breach to another 1,357 individuals on August 23, 2019, meaning that its investigation into the Data Breach did not discover the full extent of the breach prior to sending out the initial notice in March 2019.

36. Defendant had obligations created by HIPAA, contract, industry standards, common law, and representations made to Plaintiffs and Class Members, to keep their Private Information confidential and to protect it from unauthorized access and disclosure.

37. Plaintiffs and Class Members provided their Private Information to Defendant with the reasonable expectation and mutual understanding that Defendant would comply with its obligations to keep such information confidential and secure from unauthorized access.

38. Defendant's data security obligations were particularly important given the substantial increase in cyberattacks and data breaches in the healthcare industry preceding the date of the Data Breach.

39. Indeed, cyberattacks have become so notorious that the Federal Bureau of Investigation ("FBI") and U.S. Secret Service have issued a warning to potential targets so they are aware of, and prepared for, a potential attack. As one report explained, "[e]ntities like smaller municipalities and *hospitals* are attractive to ransomware criminals...because they often have lesser IT defenses and a high incentive to regain access to their data quickly."<sup>4</sup>

40. Therefore, the increase in such attacks, and attendant risk of future attacks, was widely known to the public and to anyone in Defendant's industry, including NAVICENT.

41. Defendant breached its obligations to Plaintiffs and Class Members and/or was otherwise negligent and reckless because it failed to properly maintain and safeguard its computer systems and data—including Plaintiffs' and Class Members' Private Information. Defendant's unlawful conduct includes, but is not limited to, the following acts and/or omissions:

---

<sup>4</sup> [https://www.law360.com/consumerprotection/articles/1220974/fbi-secret-service-warn-of-targeted-ransomware?nl\\_pk=3ed44a08-fcc2-4b6c-89f0-aa0155a8bb51&utm\\_source=newsletter&utm\\_medium=email&utm\\_campaign=consumerprotection](https://www.law360.com/consumerprotection/articles/1220974/fbi-secret-service-warn-of-targeted-ransomware?nl_pk=3ed44a08-fcc2-4b6c-89f0-aa0155a8bb51&utm_source=newsletter&utm_medium=email&utm_campaign=consumerprotection) (emphasis added).

- a. Failing to maintain an adequate data security system to reduce the risk of data breaches and cyberattacks;
- b. Failing to adequately protect patients' Private Information;
- c. Failing to properly monitor its own data security systems for existing intrusions;
- d. Failing to ensure that its vendors with access to its computer systems and data employed reasonable security procedures;
- e. Failing to ensure the confidentiality and integrity of electronic PHI it created, received, maintained, and/or transmitted, in violation of 45 C.F.R. § 164.306(a)(1);
- f. Failing to implement technical policies and procedures for electronic information systems that maintain electronic PHI to allow access only to those persons or software programs that have been granted access rights in violation of 45 C.F.R. § 164.312(a)(1);
- g. Failing to implement policies and procedures to prevent, detect, contain, and correct security violations in violation of 45 C.F.R. § 164.308(a)(1)(i);
- h. Failing to implement procedures to review records of information system activity regularly, such as audit logs, access reports, and security incident tracking reports in violation of 45 C.F.R. § 164.308(a)(1)(ii)(D);
- i. Failing to protect against reasonably anticipated threats or hazards to the security or integrity of electronic PHI in violation of 45 C.F.R. § 164.306(a)(2);

- j. Failing to protect against reasonably anticipated uses or disclosures of electronic PHI that are not permitted under the privacy rules regarding individually identifiable health information in violation of 45 C.F.R. § 164.306(a)(3);
- k. Failing to ensure compliance with HIPAA security standard rules by its workforces in violation of 45 C.F.R. § 164.306(a)(4);
- l. Failing to train all members of its workforces effectively on the policies and procedures regarding PHI as necessary and appropriate for the members of its workforces to carry out their functions and to maintain security of PHI, in violation of 45 C.F.R. § 164.530(b); and/or
- m. Failing to render the electronic PHI it maintained unusable, unreadable, or indecipherable to unauthorized individuals, as it had not encrypted the electronic PHI as specified in the HIPAA Security Rule by “the use of an algorithmic process to transform data into a form in which there is a low probability of assigning meaning without use of a confidential process or key” (45 CFR 164.304 definition of encryption).

42. As the result of computer systems in dire need of security upgrading, inadequate procedures for handling emails containing viruses or other malignant computer code, and employees who opened files containing the virus or malignant code that perpetrated the cyberattack, Defendant NAVICENT negligently and unlawfully failed to safeguard Plaintiffs’ and Class Members’ Private Information.

43. Accordingly, as outlined below, Plaintiffs' and Class Members' daily lives were severely disrupted. What's more, they now face an increased risk of fraud and identity theft. Plaintiffs and the Class Members also lost the benefit of the bargain they made with Defendant.

**CYBERATTACKS AND DATA BREACHES CAUSE DISRUPTION AND  
PUT CONSUMERS AT AN INCREASED RISK OF  
FRAUD AND IDENTIFY THEFT**

44. Cyberattacks and data breaches at medical facilities like NAVICENT are especially problematic because of the disruption they cause to the medical treatment and overall daily lives of patients affected by the attack.

45. Researchers have found that at medical facilities that experienced a data security incident, the death rate among patients increased in the months and years after the attack.<sup>5</sup>

46. Researchers have further found that at medical facilities that experienced a data security incident, the incident was associated with deterioration in timeliness and patient outcomes, generally.<sup>6</sup>

47. Cyberattacks such as one at issue here are considered a breach under the HIPAA Rules because there is an access of PHI not permitted under the HIPAA Privacy Rule:

A breach under the HIPAA Rules is defined as, "...the acquisition, access, use, or disclosure of PHI in a manner not permitted under the [HIPAA Privacy Rule] which compromises the security or privacy of the PHI." See 45 C.F.R. 164.40<sup>7</sup>

48. The United States Government Accountability Office released a report in 2007 regarding data breaches ("GOA Report") in which it noted that victims of identity theft will face "substantial costs and time to repair the damage to their good name and credit record."<sup>8</sup>

---

<sup>5</sup> See <https://www.pbs.org/newshour/science/ransomware-and-other-data-breaches-linked-to-uptick-in-fatal-heart-attacks>

<sup>6</sup> See <https://onlinelibrary.wiley.com/doi/full/10.1111/1475-6773.13203>.

<sup>7</sup> *Id.*

49. The FTC recommends that identity theft victims take several steps to protect their personal and financial information after a data breach, including contacting one of the credit bureaus to place a fraud alert (consider an extended fraud alert that lasts for 7 years if someone steals their identity), reviewing their credit reports, contacting companies to remove fraudulent charges from their accounts, placing a credit freeze on their credit, and correcting their credit reports.<sup>9</sup>

50. Identity thieves use stolen personal information such as Social Security numbers for a variety of crimes, including credit card fraud, phone or utilities fraud, and bank/finance fraud.

51. Identity thieves can also use Social Security numbers to obtain a driver's license or official identification card in the victim's name but with the thief's picture; use the victim's name and Social Security number to obtain government benefits; or file a fraudulent tax return using the victim's information. In addition, identity thieves may obtain a job using the victim's Social Security number, rent a house or receive medical services in the victim's name, and may even give the victim's personal information to police during an arrest resulting in an arrest warrant being issued in the victim's name. A study by Identity Theft Resource Center shows the multitude of harms caused by fraudulent use of personal and financial information.<sup>10</sup>

## Americans' expenses/disruptions as a result of criminal activity in their name [2016]

Source: Identity Theft Resource Center

creditcards.com

52. What's more, theft of Private Information is also gravely serious. PII/PHI is a valuable property right.<sup>11</sup> Its value is axiomatic, considering the value of Big Data in corporate America and the consequences of cyber thefts include heavy prison sentences. Even this obvious risk to reward analysis illustrates beyond doubt that Private Information has considerable market value.

53. Theft of PHI, in particular, is gravely serious: "A thief may use your name or health insurance numbers to see a doctor, get prescription drugs, file claims with your insurance provider, or get other care. If the thief's health information is mixed with yours, your treatment, insurance and payment records, and credit report may be affected."<sup>12</sup> Drug manufacturers,

<sup>11</sup> See, e.g., John T. Soma, et al, Corporate Privacy Trend: The "Value" of Personally Identifiable Information ("PII") Equals the "Value" of Financial Assets, 15 Rich. J.L. & Tech. 11, at \*3-4 (2009) ("PII, which companies obtain at little cost, has quantifiable value that is rapidly reaching a level comparable to the value of traditional financial assets.") (citations omitted).

<sup>12</sup> See Federal Trade Commission, Medical Identity Theft, <http://www.consumer.ftc.gov/articles/0171-medical-identity-theft> (last visited March 27, 2020).

medical device manufacturers, pharmacies, hospitals and other healthcare service providers often purchase PII/PHI on the black market for the purpose of target marketing their products and services to the physical maladies of the data breach victims themselves. Insurance companies purchase and use wrongfully disclosed PHI to adjust their insureds' medical insurance premiums.

54. It must also be noted there may be a substantial time lag—measured in years—between when harm occurs versus when it is discovered, and also between when Private Information, financial information, and other sensitive data is stolen and when it is used. According to the U.S. Government Accountability Office, which conducted a study regarding data breaches:

[L]aw enforcement officials told us that in some cases, stolen data may be held for up to a year or more before being used to commit identity theft. Further, once stolen data have been sold or posted on the Web, fraudulent use of that information may continue for years. As a result, studies that attempt to measure the harm resulting from data breaches cannot necessarily rule out all future harm.

*See* GAO Report, at p. 29.

55. Private Information and financial information are such valuable commodities to identity thieves that once the information has been compromised, criminals often trade the information on the “cyber black-market” for years.

56. There is a strong probability that entire batches of stolen information have been dumped on the black market and are yet to be dumped on the black market, meaning Plaintiffs and Class Members are at an increased risk of fraud and identity theft for many years into the future. Thus, Plaintiffs and Class Members must vigilantly monitor their financial and medical accounts for many years to come.

57. Medical information is especially valuable to identity thieves. According to account monitoring company LogDog, coveted Social Security numbers were selling on the dark web for just \$1 in 2016—the same as a Facebook account. That pales in comparison with the asking price for medical data, which was selling for \$50 and up.<sup>13</sup>

58. Because of its value, the medical industry has experienced disproportionately higher numbers of data theft events than other industries. Defendant therefore knew or should have known this and strengthened its network and data systems accordingly. Defendant was put on notice of the substantial and foreseeable risk of harm from a data breach, yet it failed to properly prepare for that risk, resulting in the Data Breach.

#### **PLAINTIFFS' AND CLASS MEMBERS' DAMAGES**

59. To date, Defendant has done absolutely nothing to provide Plaintiffs and the Class Members with relief for the damages they have suffered as a result of the Data Breach.

60. To date, Defendant has not even offered Plaintiffs and the Class Members any free credit monitoring, identity theft protection, or identity restoration services.

61. Free credit monitoring was only offered to those whose Social Security numbers were deemed compromised, and even then, the credit monitoring was inadequate, covering only one year, when the type of fraud and other risks can lag and persist for years.

62. Instead of offering any real assistance or compensation, Defendant actively encouraged Plaintiffs and the Class Members to spend their personal time dealing with the aftereffects of the Data Breach, recommending that Plaintiffs and Class Members take the time

---

<sup>13</sup> <https://nakedsecurity.sophos.com/2019/10/03/ransomware-attacks-paralyze-and-sometimes-crush-hospitals/#content>; <https://getlogdog.com/blogdog/email-security-you-are-doing-it-wrong/>

to “regularly monitor credit reports, account statements and benefit statements,” rather than offering a service to monitor on behalf of Plaintiffs and Class Members.<sup>14</sup>

63. Plaintiffs and Class Members have been damaged by the compromise of their Private Information in the Data Breach.

64. Plaintiffs’ PII and PHI was compromised as a direct and proximate result of the Data Breach.

65. As a direct and proximate result of Defendant’s conduct, Plaintiffs and Class Members have been placed at an imminent, immediate, and continuing increased risk of harm from fraud and identity theft. Defendant inherently recognizes this imminent, immediate, and continuing increased risk because of its acknowledgement that Plaintiffs and Class Members should “regularly monitor credit reports, account statements and benefit statements.”

66. As a direct and proximate result of Defendant’s conduct, Plaintiffs and Class Members have been forced to expend time dealing with the effects of the Data Breach.

67. Plaintiffs and Class Members face substantial risk of out-of-pocket fraud losses such as loans opened in their names, medical services billed in their names, tax return fraud, utility bills opened in their names, credit card fraud, and similar identity theft.

68. Plaintiffs and Class Members face substantial risk of being targeted for future phishing, data intrusion, and other illegal schemes based on their Private Information as potential fraudsters could use that information to more effectively target such schemes to Plaintiffs and Class Members.

---

<sup>14</sup> <https://www.navicenthealth.org/notice-of-data-security-incident.html>

69. Plaintiffs and Class Members may also incur out-of-pocket costs for protective measures such as credit monitoring fees, credit report fees, credit freeze fees, and similar costs directly or indirectly related to the Data Breach.

70. Plaintiffs and Class Members also suffered a loss of value of their Private Information when it was acquired by cyber thieves in the Data Breach. Numerous courts have recognized the propriety of loss of value damages in related cases.

71. Plaintiffs and Class Members were also damaged via benefit-of-the-bargain damages. Plaintiffs and Class Members overpaid for a service that was intended to be accompanied by adequate data security but was not. Part of the price Plaintiffs and Class Members paid to Defendant was intended to be used by Defendant to fund adequate security of NAVICENT's computer property and Plaintiffs' and Class Members' Private Information. Thus, Plaintiffs and the Class Members did not get what they paid for.

72. Plaintiffs and Class Members have spent and will continue to spend significant amounts of time to monitor their financial and medical accounts and records for misuse.

73. Plaintiffs and Class Members have suffered or will suffer actual injury as a direct result of the Data Breach. Many victims suffered ascertainable losses in the form of out-of-pocket expenses and the value of their time reasonably incurred to remedy or mitigate the effects of the Data Breach relating to:

- a. Finding fraudulent charges;
- b. Canceling and reissuing credit and debit cards;
- c. Purchasing credit monitoring and identity theft prevention;
- d. Addressing their inability to withdraw funds linked to compromised accounts;

- e. Taking trips to banks and waiting in line to obtain funds held in limited accounts;
- f. Placing “freezes” and “alerts” with credit reporting agencies;
- g. Spending time on the phone with or at a financial institution to dispute fraudulent charges;
- h. Contacting financial institutions and closing or modifying financial accounts;
- i. Resetting automatic billing and payment instructions from compromised credit and debit cards to new ones;
- j. Paying late fees and declined payment fees imposed as a result of failed automatic payments that were tied to compromised cards that had to be cancelled; and
- k. Closely reviewing and monitoring bank accounts and credit reports for unauthorized activity for years to come.

74. Moreover, Plaintiffs and Class Members have an interest in ensuring that their Private Information, which is believed to remain in the possession of Defendant, is protected from further breaches by the implementation of sufficient security measures and safeguards, including but not limited to, making sure that the storage of data or documents containing personal and financial information is not accessible online and that access to such data is password-protected.

75. Further, as a result of Defendant’s conduct, Plaintiffs and Class Members are forced to live with the anxiety that their Private Information—which contains the most intimate details about a person’s life, including what ailments they suffer, whether physical or mental—

may be disclosed to the entire world, thereby subjecting them to embarrassment and depriving them of any right to privacy whatsoever.

76. As a direct and proximate result of Defendant's actions and inactions, Plaintiffs and Class Members have suffered anxiety, emotional distress, and loss of privacy, and are at an increased risk of future harm.

### **CLASS ACTION ALLEGATIONS**

77. Plaintiffs bring this action on behalf of themselves and on behalf of all other persons similarly situated ("the Class").

78. Plaintiffs propose the following Class definition, subject to amendment as appropriate:

All persons who utilized Defendant NAVICENT's services whose Private Information was maintained on Defendant NAVICENT's email and computer system that was compromised in the Data Breach, and who received notice of the Data Breach.

79. Excluded from the Class are Defendant's officers, directors, and employees; any entity in which Defendant has a controlling interest; and the affiliates, legal representatives, attorneys, successors, heirs, and assigns of Defendant. Excluded also from the Class are Members of the judiciary to whom this case is assigned, their families and Members of their staff.

80. Numerosity - O.C.G.A. § 9-11-23(a)(1). The Members of the Class are so numerous that joinder of all of them is impracticable. While the exact number of Class Members is unknown to Plaintiffs at this time, based on information and belief, the Class consists of approximately 278,016 patients of Defendant NAVICENT whose data was compromised in Data Breach.

81. Commonality - O.C.G.A. § 9-11-23(a)(2). There are questions of law and fact common to the Class, which predominate over any questions affecting only individual Class Members. These common questions of law and fact include, without limitation:

- a. Whether Defendant unlawfully used, maintained, lost, or disclosed Plaintiffs' and Class Members' Private Information;
- b. Whether Defendant failed to implement and maintain reasonable security procedures and practices appropriate to the nature and scope of the information compromised in the Data Breach;
- c. Whether Defendant's data security systems prior to and during the Data Breach complied with applicable data security laws and regulations including, *e.g.*, HIPAA;
- d. Whether Defendant's data security systems prior to and during the Data Breach were consistent with industry standards;
- e. Whether Defendant owed a duty to Class Members to safeguard their Private Information;
- f. Whether Defendant breached its duty to Class Members to safeguard their Private Information;
- g. Whether computer hackers obtained Class Members' Private Information in the Data Breach;
- h. Whether Defendant knew or should have known that its data security systems and monitoring processes were deficient;
- i. Whether Plaintiffs and Class Members suffered legally cognizable damages as a result of Defendant's misconduct;

- j. Whether Defendant's conduct was negligent;
- k. Whether Defendant's conduct was *per se* negligent;
- l. Whether Defendant's acts, inactions, and practices complained of herein amount to acts of intrusion upon seclusion under the law;
- m. Whether Defendant's conduct violated the Georgia Fair Business Practices Act;
- n. Whether Defendant failed to provide notice of the Data Breach in a timely manner, and;
- o. Whether Plaintiffs and Class Members are entitled to damages, civil penalties, punitive damages, and/or injunctive relief.

82. Typicality - O.C.G.A. § 9-11-23(a)(3). Plaintiffs' claims are typical of those of other Class Members because Plaintiffs' Private Information, like that of every other Class member, was compromised in the Data Breach.

83. Adequacy of Representation - O.C.G.A. § 9-11-23(a)(4). Plaintiffs will fairly and adequately represent and protect the interests of the Members of the Class. Plaintiffs' Counsel are competent and experienced in litigating Class actions.

84. Predominance - O.C.G.A. § 9-11-23(b)(3). Defendant has engaged in a common course of conduct toward Plaintiffs and Class Members, in that all the Plaintiffs' and Class Members' Private Information was stored on the same computer systems and unlawfully accessed in the same way. The common issues arising from Defendant's conduct affecting Class Members set out above predominate over any individualized issues. Adjudication of these common issues in a single action has important and desirable advantages of judicial economy.

85. Superiority - O.C.G.A. § 9-11-23(b)(3). A Class action is superior to other available methods for the fair and efficient adjudication of the controversy. Class treatment of common questions of law and fact is superior to multiple individual actions or piecemeal litigation. Absent a Class action, most Class Members would likely find that the cost of litigating their individual claims is prohibitively high and would therefore have no effective remedy. The prosecution of separate actions by individual Class Members would create a risk of inconsistent or varying adjudications with respect to individual Class Members, which would establish incompatible standards of conduct for Defendant. In contrast, the conduct of this action as a Class action presents far fewer management difficulties, conserves judicial resources and the parties' resources, and protects the rights of each Class member.

86. Defendant has acted on grounds that apply generally to the Class as a whole, so that Class certification, injunctive relief, and corresponding declaratory relief are appropriate on a Class-wide basis.

## **CAUSES OF ACTION**

### **FIRST COUNT**

#### **NEGLIGENCE**

#### **(On Behalf of Plaintiffs and All Class Members)**

87. Plaintiffs re-allege and incorporate by reference Paragraphs 1 through 86 above as if fully set forth herein.

88. Defendant required Plaintiffs and Class Members to submit non-public Private Information in order to obtain medical services.

89. By collecting and storing this data in its computer property, and sharing it and using it for commercial gain, Defendant had a duty of care to use reasonable means to secure and safeguard its computer property—and Class Members' Private Information held within it—to

prevent disclosure of the Private Information, and to safeguard the Private Information from theft. Defendant's duty included a responsibility to implement processes by which it could detect a breach of its security systems in a reasonably expeditious period of time and to give prompt notice to those affected in the case of a data breach.

90. Defendant owed a duty of care to Plaintiffs and Class Members to provide data security consistent with industry standards and other requirements discussed herein, and to ensure that its systems and networks, and the personnel responsible for them, adequately protected the Private Information.

91. Defendant's duty of care to use reasonable security measures arose as a result of the special relationship that existed between Defendant and its client patients, which is recognized by laws and regulations including but not limited to HIPAA, as well as common law. Defendant was in a position to ensure that its systems were sufficient to protect against the foreseeable risk of harm to Class Members from a data breach.

92. Defendant's duty to use reasonable security measures under HIPAA required Defendant to "reasonably protect" confidential data from "any intentional or unintentional use or disclosure" and to "have in place appropriate administrative, technical, and physical safeguards to protect the privacy of protected health information." 45 C.F.R. § 164.530(c)(1). Some or all of the medical information at issue in this case constitutes "protected health information" within the meaning of HIPAA.

93. In addition, Defendant had a duty to employ reasonable security measures under Section 5 of the Federal Trade Commission Act, 15 U.S.C. § 45, which prohibits "unfair . . . practices in or affecting commerce," including, as interpreted and enforced by the FTC, the unfair practice of failing to use reasonable measures to protect confidential data.

94. Defendant's duty to use reasonable care in protecting confidential data arose not only as a result of the statutes and regulations described above, but also because Defendant is bound by industry standards to protect confidential Private Information.

95. Defendant breached its duties, and thus was negligent, by failing to use reasonable measures to protect Class Members' Private Information. The specific negligent acts and omissions committed by Defendant include, but are not limited to, the following:

- a. Failing to adopt, implement, and maintain adequate security measures to safeguard Class Members' Private Information;
- b. Failing to adequately monitor the security of its networks and systems;
- c. Failure to periodically ensure that its email system had plans in place to maintain reasonable data security safeguards;
- d. Allowing unauthorized access to Class Members' Private Information;
- e. Failing to detect in a timely manner that Class Members' Private Information had been compromised; and
- f. Failing to timely notify Class Members about the Data Breach so that they could take appropriate steps to mitigate the potential for identity theft and other damages.

96. It was foreseeable that Defendant's failure to use reasonable measures to protect Class Members' Private Information would result in injury to Class Members. Further, the breach of security was reasonably foreseeable given the known high frequency of cyberattacks and data breaches in the medical industry.

97. It was therefore foreseeable that the failure to adequately safeguard Class Members' Private Information would result in one or more types of injuries to Class Members.

98. Plaintiffs and Class Members are entitled to compensatory and consequential damages suffered as a result of the Data Breach

99. Plaintiffs and Class Members are also entitled to injunctive relief requiring Defendant to, *inter alia*: (i) strengthen its data security systems and monitoring procedures; (ii) submit to future annual audits of those systems and monitoring procedures; and (iii) continue to provide adequate credit monitoring to all Class Members.

## **SECOND COUNT**

### **INTRUSION INTO PRIVATE AFFAIRS/INVATION OF PRIVACY (On Behalf of Plaintiffs and All Class Members)**

100. Plaintiffs repeat and re-allege each and every allegation contained in Paragraphs 1 through 86 as if fully set forth herein.

101. The state of Georgia recognizes the tort of Intrusion into Private Affairs, and adopts the formulation of that tort found in the Restatement (Second) of Torts, which states:

One who intentionally intrudes, physically or otherwise, upon the solitude or seclusion of another or his private affairs or concerns, is subject to liability to the other for invasion of his privacy, if the intrusion would be highly offensive to a reasonable person.

Restatement (Second) of Torts § 652B (1977).

102. Plaintiffs and Class Members had a reasonable expectation of privacy in the Private Information Defendant mishandled.

103. Defendant's conduct as alleged above intruded upon Plaintiffs' and Class Members' seclusion under common law.

104. By intentionally failing to keep Plaintiffs' and Class Members' Private Information safe, and by intentionally misusing and/or disclosing said information to unauthorized parties for unauthorized use, Defendant intentionally invaded Plaintiffs' and Class Members' privacy by:

- a. Intentionally and substantially intruding into Plaintiffs' and Class Members' private affairs in a manner that identifies Plaintiffs and Class Members and that would be highly offensive and objectionable to an ordinary person; and
- b. Intentionally publicizing private facts about Plaintiffs and Class Members, which is highly offensive and objectionable to an ordinary person; and
- c. Intentionally causing anguish or suffering to Plaintiffs and Class Members.

105. Defendant knew that an ordinary person in Plaintiffs' or a Class Member's position would consider Defendant's intentional actions highly offensive and objectionable.

106. Defendant invaded Plaintiffs and Class Members' right to privacy and intruded into Plaintiffs' and Class Members' private affairs by intentionally misusing and/or disclosing their Private Information without their informed, voluntary, affirmative, and clear consent.

107. Defendant intentionally concealed from Plaintiffs and Class Members an incident that misused and/or disclosed their Private information without their informed, voluntary, affirmative, and clear consent.

108. As a proximate result of such intentional misuse and disclosures, Plaintiffs' and Class Members' reasonable expectations of privacy in their Private Information was unduly frustrated and thwarted. Defendant's conduct, amounting to a substantial and serious invasion of Plaintiffs' and Class Members' protected privacy interests, caused anguish and suffering such that an ordinary person would consider Defendant's intentional actions or inaction highly offensive and objectionable.

109. In failing to protect Plaintiffs' and Class Members' Private Information, and in intentionally misusing and/or disclosing their Private Information, Defendant acted with intentional malice and oppression and in conscious disregard of Plaintiffs' and Class Members'

rights to have such information kept confidential and private. Plaintiffs, therefore, seek an award of damages on behalf of themselves and the Class.

### **THIRD COUNT**

#### **Breach of Express Contract (On Behalf of Plaintiffs and All Class Members)**

110. Plaintiffs re-allege and incorporate by reference Paragraphs 1 through 86 above as if fully set forth herein.

111. Plaintiffs and Members of the Class allege that they entered into valid and enforceable express contracts, or were third party beneficiaries of valid and enforceable express contracts, with Defendant.

112. The valid and enforceable express contracts that Plaintiffs and Class Members entered into with Defendant include Defendant's promise to protect nonpublic Private Information given to Defendant or that Defendant gathers on its own from disclosure.

113. Under these express contracts, Defendant and/or its affiliated healthcare providers, promised and were obligated to: (a) provide healthcare to Plaintiffs and Class Members; and (b) protect Plaintiffs' and the Class Members' PII/PHI: (i) provided to obtain such healthcare; and/or (ii) created as a result of providing such healthcare. In exchange, Plaintiffs and Members of the Class agreed to pay money for these services, and to turn over their Private Information.

114. Both the provision of healthcare and the protection of Plaintiffs' and Class Members' Private Information were material aspects of these contracts.

115. At all relevant times, Defendant expressly represented in its Privacy Notice that it would, among other things: (i) "to keep your PHI private;" (ii) "to provide individuals with notice of its legal duties and privacy practices with respect to PHI;" (iii) "to abide by the terms

described in this Notice;” (iv) to provide notice of breach “of your unsecured PHI,” and; (v) to make any other uses and disclosures of medical information not covered by the Privacy Notice or the laws that apply to use “only with written authorization.”<sup>15</sup>

116. Defendant’s express representations, including, but not limited to, express representations found in its Notice of Privacy Practices, formed an express contract requiring Defendant to implement data security adequate to safeguard and protect the privacy of Plaintiffs’ and Class Members’ Private Information.

117. Consumers of healthcare value their privacy, the privacy of their dependents, and the ability to keep their Private Information associated with obtaining healthcare private. To customers such as Plaintiffs and Class Members, healthcare that does not adhere to industry standard data security protocols to protect Private Information is fundamentally less useful and less valuable than healthcare that adheres to industry-standard data security. Plaintiffs and Class Members would not have entered into these contracts with Defendant and/or its affiliated healthcare providers as a direct or third-party beneficiary without an understanding that their Private Information would be safeguarded and protected.

118. A meeting of the minds occurred, as Plaintiffs and Members of the Class provided their Private Information to Defendant and/or its affiliated healthcare providers, and paid for the provided healthcare in exchange for, amongst other things, protection of their Private Information.

119. Plaintiffs and Class Members performed their obligations under the contract when they paid for their health care services and provided their Private Information.

---

<sup>15</sup><https://6e4e5253c366be07fb27-05a8d4e28b318db45e55745aeda40acc.ssl.cf5.rackcdn.com/privacy-policy-2016.pdf>

120. Defendant materially breached its contractual obligation to protect the nonpublic Private Information Defendant gathered when the information was accessed and exfiltrated by unauthorized personnel as part of the Data Breach.

121. Defendant materially breached the terms of these express contracts, including, but not limited to, the terms stated in the relevant Notice of Privacy Practices. Defendant did not maintain the privacy of Plaintiffs' and Class Members' Private Information as evidenced by its notifications of the Data Breach to Plaintiffs and approximately 278,016 Class Members. Specifically, Defendant did not comply with industry standards, or otherwise protect Plaintiffs' and the Class Members' Private Information, as set forth above.

122. The Data Breach was a reasonably foreseeable consequence of Defendant's actions in breach of these contracts.

123. As a result of Defendant's failure to fulfill the data security protections promised in these contracts, Plaintiffs and Members of the Class did not receive the full benefit of the bargain, and instead received healthcare and other services that were of a diminished value to that described in the contracts. Plaintiffs and Class Members therefore were damaged in an amount at least equal to the difference in the value of the healthcare with data security protection they paid for and the healthcare they received.

124. Had Defendant disclosed that its security was inadequate or that it did not adhere to industry-standard security measures, neither the Plaintiffs, the Class Members, nor any reasonable person would have purchased healthcare from Defendant and/or its affiliated healthcare providers.

125. As a direct and proximate result of the Data Breach, Plaintiffs and Class Members have been harmed and have suffered, and will continue to suffer, actual damages and injuries,

including without limitation the release, disclosure, and publication of their Private Information, the loss of control of their Private Information, the imminent risk of suffering additional damages in the future, disruption of their medical care and treatment, out-of-pocket expenses, and the loss of the benefit of the bargain they had struck with Defendant.

126. Plaintiffs and Class Members are entitled to compensatory and consequential damages suffered as a result of the Data Breach.

#### **FOURTH COUNT**

##### **Breach of Implied Contract (On Behalf of Plaintiffs and All Class Members)**

127. Plaintiffs re-allege and incorporate by reference Paragraphs 1 through 86 above as if fully set forth herein.

128. When Plaintiffs and Class Members provided their Private Information to NAVICENT in exchange for Defendant's services, they entered into implied contracts with Defendant pursuant to which Defendant agreed to reasonably protect such Private Information.

129. Defendant solicited and invited Class Members to provide their Private Information as part of Defendant's regular business practices. Plaintiffs and Class Members accepted Defendant's offers and provided their Private Information to Defendant.

130. In entering into such implied contracts, Plaintiffs and Class Members reasonably believed and expected that Defendant's data security practices complied with relevant laws and regulations, including HIPAA, and were consistent with industry standards.

131. Class Members who paid money to Defendant reasonably believed and expected that Defendant would use part of those funds to obtain adequate data security. Defendant failed to do so.

132. Plaintiffs and Class Members would not have entrusted their Private Information to Defendant in the absence of the implied contract between them and Defendant to keep their information reasonably secure. Plaintiffs and Class Members would not have entrusted their Private Information to Defendant in the absence of its implied promise to monitor its computer systems and networks to ensure that it adopted reasonable data security measures.

133. Plaintiffs and Class Members fully and adequately performed their obligations under the implied contracts with Defendant.

134. Defendant breached its implied contracts with Plaintiffs and Class Members by failing to safeguard and protect their Private Information.

135. As a direct and proximate result of Defendant's breaches of the implied contracts, Plaintiffs and Class Members sustained damages as alleged herein.

136. Plaintiffs and Class Members are entitled to compensatory and consequential damages suffered as a result of the Data Breach.

137. Plaintiffs and Class Members are also entitled to injunctive relief requiring Defendant to, *inter alia*: (i) strengthen its data security systems and monitoring procedures; (ii) submit to future annual audits of those systems and monitoring procedures; and (iii) immediately provide adequate credit monitoring to all Class Members.

## **FIFTH COUNT**

### **Negligence *Per Se* (On Behalf of Plaintiffs and All Class Members)**

138. Plaintiffs re-allege and incorporate by reference Paragraphs 1 through 86 above as if fully set forth herein.

139. Pursuant to Section 5 of the Federal Trade Commission Act (15 U.S.C. § 45), Defendant had a duty to provide fair and adequate computer systems and data security practices to safeguard Plaintiffs' and Class Members' Private Information.

140. Pursuant to HIPAA (42 U.S.C. § 1302d, et seq.), Defendant had a duty to implement reasonable safeguards to protect Plaintiffs' and Class Members' Private Information.

141. Pursuant to HIPAA, Defendant had a duty to render the electronic PHI it maintained unusable, unreadable, or indecipherable to unauthorized individuals, as specified in the HIPAA Security Rule by "the use of an algorithmic process to transform data into a form in which there is a low probability of assigning meaning without use of a confidential process or key" (45 CFR 164.304 definition of encryption).

142. Pursuant to the Gramm-Leach-Bliley Act (15 U.S.C. § 6801), Defendant had a duty to protect the security and confidentiality of Plaintiffs' and Class Members' Private Information.

143. Defendant breached its duties to Plaintiffs and Class Members under the Federal Trade Commission Act, HIPAA, and the Gramm-Leach-Bliley Act by failing to provide fair, reasonable, or adequate computer systems and data security practices to safeguard Plaintiffs' and Class Members' Private Information.

144. Defendant's failure to comply with applicable laws and regulations constitutes negligence *per se*.

145. But for Defendant's wrongful and negligent breach of its duties owed to Plaintiffs and Class Members, Plaintiffs and Class Members would not have been injured.

146. The injury and harm suffered by Plaintiffs and Class Members was the reasonably foreseeable result of Defendant's breach of its duties. Defendant knew or should have known that it was failing to meet its duties, and that Defendant's breach would cause Plaintiffs and Class Members to experience the foreseeable harms associated with the exposure of their Private Information.

147. As a direct and proximate result of Defendant's negligent conduct, Plaintiffs and Class Members have suffered injury and are entitled to compensatory, consequential, and punitive damages in an amount to be proven at trial.

## **SIXTH COUNT**

### **Breach of Fiduciary Duty (On Behalf of Plaintiffs and All Class Members)**

148. Plaintiffs re-allege and incorporate by reference Paragraphs 1 through 86 above as if fully set forth herein.

149. In light of the special relationship between Defendant and Plaintiffs and Class Members, whereby Defendant became guardians of Plaintiffs' and Class Members' Private Information, Defendant became a fiduciary by its undertaking and guardianship of the Private Information, to act primarily for the benefit of its patients, including Plaintiffs and Class Members: (i) for the safeguarding of Plaintiffs' and Class Members' Private Information; (ii) to timely notify Plaintiffs and Class Members of a data breach and disclosure; and (iii) maintain complete and accurate records of what Private Information (and where) Defendant did and does store.

150. Defendant has a fiduciary duty to act for the benefit of Plaintiffs and Class Members upon matters within the scope of its patients' relationship, in particular, to keep secure the Private Information of its patients.

151. Defendant breached its fiduciary duties to Plaintiffs and Class Members by failing to diligently discover, investigate, and give notice of the Data Breach in a reasonable and practicable period of time.

152. Defendant breached its fiduciary duties to Plaintiffs and Class Members by failing to encrypt and otherwise protect the integrity of the systems containing Plaintiffs' and Class Members' Private Information.

153. Defendant breached its fiduciary duties owed to Plaintiffs and Class Members by failing to timely notify and/or warn Plaintiffs and Class Members of the Data Breach.

154. Defendant breached its fiduciary duties owed to Plaintiffs and Class Members by failing to ensure the confidentiality and integrity of electronic PHI Defendant created, received, maintained, and transmitted, in violation of 45 C.F.R. § 164.306(a)(1).

155. Defendant breached its fiduciary duties owed to Plaintiffs and Class Members by failing to implement technical policies and procedures for electronic information systems that maintain electronic PHI to allow access only to those persons or software programs that have been granted access rights in violation of 45 C.F.R. § 164.312(a)(1).

156. Defendant breached its fiduciary duties owed to Plaintiffs and Class Members by failing to implement policies and procedures to prevent, detect, contain, and correct security violations, in violation of 45 C.F.R. § 164.308(a)(1).

157. Defendant breached its fiduciary duties owed to Plaintiffs and Class Members by failing to identify and respond to suspected or known security incidents and to mitigate, to the

extent practicable, harmful effects of security incidents that are known to the covered entity in violation of 45 C.F.R. § 164.308(a)(6)(ii).

158. Defendant breached its fiduciary duties owed to Plaintiffs and Class Members by failing to protect against any reasonably anticipated threats or hazards to the security or integrity of electronic PHI in violation of 45 C.F.R. § 164.306(a)(2).

159. Defendant breached its fiduciary duties owed to Plaintiffs and Class Members by failing to protect against any reasonably anticipated uses or disclosures of electronic PHI that are not permitted under the privacy rules regarding individually identifiable health information in violation of 45 C.F.R. § 164.306(a)(3).

160. Defendant breached its fiduciary duties owed to Plaintiffs and Class Members by failing to ensure compliance with the HIPAA security standard rules by its workforce in violation of 45 C.F.R. § 164.306(a)(94).

161. Defendant breached its fiduciary duties owed to Plaintiffs and Class Members by impermissibly and improperly using and disclosing PHI that is and remains accessible to unauthorized persons in violation of 45 C.F.R. § 164.502, et seq.

162. Defendant breached its fiduciary duties owed to Plaintiffs and Class Members by failing to effectively train all Members of its workforce (including independent contractors) on the policies and procedures with respect to PHI as necessary and appropriate for the members of its workforce to carry out their functions and to maintain security of PHI in violation of 45 C.F.R. § 164.530(b) and 45 C.F.R. § 164.308(a)(5).

163. Defendant breached its fiduciary duties owed to Plaintiffs and Class Members by failing to design, implement, and enforce policies and procedures establishing physical and

administrative safeguards to reasonably safeguard PHI, in compliance with 45 C.F.R. § 164.530(c).

164. Defendant breached its fiduciary duties to Plaintiffs and Class Members by otherwise failing to safeguard Plaintiffs' and Class Members' Private Information.

165. As a direct and proximate result of Defendant's breaches of its fiduciary duties, Plaintiffs and Class Members have suffered and will suffer injury, including but not limited to: (i) actual identity theft; (ii) the compromise, publication, and/or theft of their Private Information; (iii) out-of-pocket expenses associated with the prevention, detection, and recovery from identity theft and/or unauthorized use of their Private Information; (iv) lost opportunity costs associated with effort expended and the loss of productivity addressing and attempting to mitigate the actual and future consequences of the Data Breach, including but not limited to efforts spent researching how to prevent, detect, contest, and recover from identity theft; (v) the continued risk to their Private Information, which remains in Defendant's possession and is subject to further unauthorized disclosures so long as Defendant fails to undertake appropriate and adequate measures to protect the Private Information in its continued possession; (vi) future costs in terms of time, effort, and money that will be expended as result of the Data Breach for the remainder of the lives of Plaintiffs and Class Members; and (vii) the diminished value of Defendant's services they received.

166. As a direct and proximate result of Defendant's breaches of its fiduciary duties, Plaintiffs and Class Members have suffered and will continue to suffer other forms of injury and/or harm, and other economic and non-economic losses.

## SEVENTH COUNT

### **Breach of Confidence (On Behalf of Plaintiffs and All Class Members)**

167. Plaintiffs re-allege and incorporate by reference Paragraphs 1 through 86 above as if fully set forth herein.

168. At all times during Plaintiffs' and Class Members' interactions with Defendant, Defendant was fully aware of the confidential and sensitive nature of Plaintiffs' and Class Members' Private Information that Plaintiffs and Class Members provided to Defendant.

169. As alleged herein and above, Defendant's relationship with Plaintiffs and Class Members was governed by terms and expectations that Plaintiffs' and Class Members' Private Information would be collected, stored, and protected in confidence, and would not be disclosed to unauthorized third parties.

170. Plaintiffs and Class Members provided their respective Private Information to Defendant with the explicit and implicit understandings that Defendant would protect and not permit the Private Information to be disseminated to any unauthorized parties.

171. Plaintiffs and Class Members also provided their Private Information to Defendant with the explicit and implicit understandings that Defendant would take precautions to protect that Private Information from unauthorized disclosure, such as following basic principles of protecting its networks and data systems, including employees' email accounts.

172. Defendant voluntarily received in confidence Plaintiffs' and Class Members' Private Information with the understanding that Private Information would not be disclosed or disseminated to the public or any unauthorized third parties.

173. Due to Defendant's failure to prevent, detect, avoid the Data Breach from occurring by, *inter alia*, following best information security practices to secure Plaintiffs' and

Class Members' Private Information, Plaintiffs' and Class Members' Private Information was disclosed and misappropriated to unauthorized third parties beyond Plaintiffs' and Class Members' confidence, and without their express permission.

174. As a direct and proximate cause of Defendant's actions and/or omissions, Plaintiffs and Class Members have suffered damages.

175. But for Defendant's disclosure of Plaintiffs' and Class Members' Private Information in violation of the parties' understanding of confidence, their Private Information would not have been compromised, stolen, viewed, accessed, and used by unauthorized third parties. Defendant's Data Breach was the direct and legal cause of the theft of Plaintiffs' and Class Members' Private Information, as well as the resulting damages.

176. The injury and harm Plaintiffs and Class Members suffered was the reasonably foreseeable result of Defendant's unauthorized disclosure of Plaintiffs' and Class Members' Private Information. Defendant knew its computer systems and technologies for accepting and securing Plaintiffs' and Class Members' Private Information had numerous security vulnerabilities.

177. As a direct and proximate result of Defendant's breaches of confidence, Plaintiffs and Class Members have suffered and will suffer injury, including but not limited to: (i) actual identity theft; (ii) the compromise, publication, and/or theft of their Private Information; (iii) out-of-pocket expenses associated with the prevention, detection, and recovery from identity theft and/or unauthorized use of their Private Information; (iv) lost opportunity costs associated with effort expended and the loss of productivity addressing and attempting to mitigate the actual and future consequences of the Data Breach, including but not limited to efforts spent researching how to prevent, detect, contest, and recover from identity theft; (v) the continued risk to their

Private Information, which remains in Defendant's possession and is subject to further unauthorized disclosures so long as Defendant fails to undertake appropriate and adequate measures to protect the Private Information in its continued possession; (vi) future costs in terms of time, effort, and money that will be expended as result of the Data Breach for the remainder of the lives of Plaintiffs and Class Members; and (vii) the diminished value of Defendant's services they received .

178. As a direct and proximate result of Defendant's breaches of its fiduciary duties, Plaintiffs and Class Members have suffered and will continue to suffer other forms of injury and/or harm, and other economic and non-economic losses.

#### **PRAYER FOR RELIEF**

WHEREFORE, Plaintiffs pray for judgment as follows:

- a) For an Order certifying this action as a Class action and appointing Plaintiffs and their counsel to represent the Class;
- b) For equitable relief enjoining Defendant from engaging in the wrongful conduct complained of herein pertaining to the misuse and/or disclosure of Plaintiffs' and Class Members' Private Information, and from refusing to issue prompt, complete and accurate disclosures to Plaintiffs and Class Members;
- c) For equitable relief compelling Defendant to utilize appropriate methods and policies with respect to consumer data collection, storage, and safety, and to disclose with specificity the type of PII and PHI (*i.e.*, Private Information) compromised during the Data Breach;
- d) For equitable relief requiring restitution and disgorgement of the revenues wrongfully retained as a result of Defendant's wrongful conduct;

- e) For an award of actual damages, compensatory damages, and nominal damages, in an amount to be determined, as allowable by law;
- f) For an award of punitive damages, as allowable by law;
- g) For an award of attorneys' fees and costs, and any other expense, including expert witness fees;
- h) Pre- and post-judgment interest on any amounts awarded; and
- i) Such other and further relief as this court may deem just and proper.

**JURY TRIAL DEMANDED**

Plaintiffs demand a trial by jury on all claims so triable.

Dated: April 29, 2020
